

# Wiktionary, the free dictionary

**6,352,226** entries with English definitions  
from over **4,100** languages

**Browse:** [All languages](#) • [List of topics](#) • [Random word](#) • [New entries](#)

[Appendices](#) • [Abbreviations](#) • [Thesaurus](#) • [Rhymes](#)  
• [Frequency lists](#) • [Phrasebooks](#)

**Look up**

Welcome to the English-language Wiktionary, a collaborative project to produce a free-content multilingual dictionary. It aims to describe all words of all languages using definitions and descriptions in English.

Wiktionary has grown beyond a standard dictionary and now includes a [thesaurus](#), a rhyme guide, phrase books, language statistics and extensive appendices. We aim to include not only the definition of a word, but also enough information to really understand it. Thus [etymologies](#), pronunciations, sample quotations, synonyms, antonyms and translations are included.

Wiktionary is a [wiki](#), which means that you can edit it, and all the content is dual-licensed under both the [Creative Commons Attribution-ShareAlike 3.0 Unported License](#) and the [GNU Free Documentation License](#). Before you contribute, you may wish to read through some of [our help pages](#), and bear in mind that we do things quite differently from other wikis. In particular, we have strict [layout conventions](#) and [inclusion criteria](#). Learn how to [start a page](#), how to [edit entries](#), experiment in the [sandbox](#) and visit our [Community Portal](#) to see how you can participate in the development of Wiktionary.
